

MAHLE

CONNEX 2 Smart Quick Start Guide

BrainBee®
WORKSHOP SOLUTIONS

DEVICE CONFIGURATION

1. Connect the VCI to a Windows or Android device

2. Install the CONNEX 2 DS app from the Play Store for Android devices or from the website at [this link](#)

Please refer to the CONNEX 2 Smart manual for the tablet's minimum requirements.

SOFTWARE CONFIGURATION

Start the CONNEX 2 DS application.

1. Connect VCI to vehicle or to tablet/pc. Select language

2. Select country of installation

3. Check for updates

4. Start scan of BLE devices

5. Check product activation licences

6. The device is now ready to be used on a vehicle.

Please refer to the CONNEX 2 Smart manual for the actual use of the device.

In case of multiple devices, check the MAC address on the VCI nameplate.

This card is a “Quick Guide” and is not intended to replace an instruction manual.
